PROFESSIONAL OBJECTIVE

PHP Developer with 6 years of experience in backend and full-stack development using PHP, CodeIgniter, MySQL, PostgreSQL, and Perl/CGI. Skilled in building scalable portals, workflow systems, PDF reporting modules, and enterprise dashboards. Strong ability to convert business requirements into secure, optimized, and user-friendly solutions.

PROFESSIONAL SUMMARY

- 6 years of experience in PHP, CodeIgniter, MySQL, PostgreSQL, and backend development.
- Built large-scale portals for admissions, recruitment, audits, analytics, and enterprise workflows.
- Strong in database design, backend logic, API development, and performance optimization.
- Experienced in multi-role access systems, workflow automation, and server-side scripting.
- Skilled in integrating SMS gateways, payment gateways, REST APIs, and PDF generation.
- Hands-on experience in Perl/CGI for backend automation and reporting modules.

CORE SKILLS

Frontend	HTML5, CSS3, JavaScript, Bootstrap, jQuery, AJAX
Backend	PHP, CodeIgniter, Perl/CGI, Node.js (Basic), REST APIs
Database	PostgreSQL, MySQL
DevOps & Tools	GitHub, Chrome DevTools
Styling & UI	Material-UI, CSS, SCSS
API Integration	PDF Generation, SMS API Integration, Workflow Automation

PROFESSIONAL EXPERIENCE

Tata Technologies – Senior Full Stack Developer *Pune | Aug 2022 Present*

Tech Stack: PHP, Perl/CGI, MySQL, JavaScript, Bootstrap

- Enhanced backend efficiency using Perl, reducing report generation time by 40%.
- Built enterprise audit and quality systems with multi-role access control.
- Developed secure server-side modules for workflow automation.
- Created dynamic dashboards for quality and audit analytics.
- Implemented frequency-based audit logic (L3/L4/L5) used across departments.
- Integrated voice-based form automation using Perl for faster data entry.
- Delivered enterprise-level platforms like WCQ-L3/L4, PDCA, Quality Audit System, 5S Audit Tool

- **Silicon Tech Lab – Software Engineer** *Bhubaneswar | 2020 – 2022*
  Tech Stack: PHP, CodeIgniter, MySQL, PostgreSQL, HTML5, Bootstrap
- Developed full-stack admission, recruitment, and grievance management portals.
- Integrated SMS APIs reducing onboarding and notification time by 25%.
- Built PDF reporting modules widely used across academic institutions.
- Managed UI/UX, backend logic, API integration, database design, and deployment.

Manhattan Tech Ventures – Web Developer Intern *Kolkata | Apr 2019 – Jun 2019*

- Supported frontend/backend improvements using HTML, JS, and PHP.

KEY PROJECTS

Tata Technologies

- **ERC WCQ-L3/L4** – Quality tracking system with audit trails, dashboards, and workflow automation..
- **5S Audit Tool** – Role-based layered audit tool with frequency control.
- **Quality Analytics** – PostgreSQL + React-based real-time dashboard.

Silicon Tech Lab

- **Purnea University Admission** – Portal with SMS/payments + PDF reports.
- **DSEU Admission & Recruitment** – Candidate tracking + user roles.
- **APS Admission** – Admin reporting and document validation module.

Featured Projects – Academic

- **Elephant Detection System** – AI + IoT solution using YOLO to detect elephants and prevent human-wildlife conflict.
- **Sixth Sense Robot** – Controlled a robotic car via gestures and voice using OpenCV.
- **Voice-Controlled LED** – Built a voice-activated LED system for smart home automation.

EDUCATION

B.Tech in Computer Science
Centurion University, Bhubaneswar | 2016–2020 | 82%

ACHIEVEMENTS

- 🏆 Winner – World Skills 2021 (University Level)
- 🌐 Selected Web Designer – State-Level Skills Competition
- 🎖 Finalist – i3India IoT Challenge at IIT Bombay
- 📄 Patent Holder – Wildlife AI+IoT Project using YOLO
