PROFESSIONAL OBJECTIVE

Full Stack Developer with 6 years of total experience, including strong hands-on expertise in React.js, Node.js, PostgreSQL, and Perl/CGI and PHP. Skilled in building high-performance dashboards, audit systems, and enterprise applications. Capable of converting business requirements into optimized, scalable, and user-friendly technology solutions.

PROFESSIONAL SUMMARY

- 6 years of full stack development experience with core focus on React.js, Node.js, PostgreSQL, Perl/CGI, and PHP.
- Built scalable tools and dashboards for quality systems, audits, analytics, and reporting modules.
- Strong in UI/UX design, frontend performance optimization, and reusable component development.
- Experienced in building secure multi-role access systems, workflow automation, and data-driven applications.
- Skilled in REST API development, integration, and backend optimization techniques.

CORE SKILLS

Frontend	React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, jQuery, AJAX
Backend	Node.js, Express.js, PHP, Perl/CGI
Database	PostgreSQL, MySQL
DevOps & Tools	GitHub, Chrome DevTools
Styling & UI	Material-UI, Tailwind CSS, SCSS, Styled Components
API Integration	REST APIs, Axios, Payment Gateway Integration

PROFESSIONAL EXPERIENCE

Tata Technologies – Senior Full Stack Developer *Pune | Aug 2022 Present*

Tech Stack: React.js, Node.js, Material UI, Perl/CGI, MySQL, JavaScript, Bootstrap

- Developed and optimized a high-performance React web application, improving load and render speeds by 40%.
- Implemented Redux Toolkit, reducing code complexity and improving maintainability by 25%.
- Enhanced backend efficiency using Perl, reducing report generation time by 40%.
- Created Material UI dashboards for quality and audit data with clean and responsive layouts.
- Built secure multi-role access and frequency-based workflow logic for enterprise audit systems.
- Integrated voice-based form filling using Perl, simplifying user data entry processes.
- Delivered multiple enterprise-level platforms end-to-end: WCQ-L3/L4, PDCA, Quality Audit System, 5S Audit Tool.

- **Silicon Tech Lab – Software Engineer** *Bhubaneswar | 2020 – 2022*
  Tech Stack: PHP, CodeIgniter, MySQL, PostgreSQL, HTML5, Bootstrap
- Developed portals for admission, recruitment, and grievance management, handling full stack development.
- Integrated SMS APIs, reducing user onboarding and notification time by 25%.
- Built PDF reporting modules used by multiple academic institutions.
- Managed complete project lifecycle including UI design, backend logic, API integration, and deployment.

Manhattan Tech Ventures – Web Developer Intern *Kolkata | Apr 2019 – Jun 2019*

- Supported frontend/backend improvements using HTML, JS, and PHP.

KEY PROJECTS

Tata Technologies

- **ERC WCQ-L3/L4** – Quality tracking system with audit trails, dashboards, and workflow automation..
- **5S Audit Tool** – Role-based layered audit tool with frequency control.
- **Quality Analytics** – PostgreSQL + React-based real-time dashboard.

Silicon Tech Lab

- **Purnea University Admission** – Portal with SMS/payments + PDF reports.
- **DSEU Admission & Recruitment** – Candidate tracking + user roles.
- **APS Admission** – Admin reporting and document validation module.

Featured Projects – Academic

- **Elephant Detection System** – AI + IoT solution using YOLO to detect elephants and prevent human-wildlife conflict.
- **Sixth Sense Robot** – Controlled a robotic car via gestures and voice using OpenCV.
- **Voice-Controlled LED** – Built a voice-activated LED system for smart home automation.

EDUCATION

B.Tech in Computer Science
Centurion University, Bhubaneswar | 2016–2020 | 82%

ACHIEVEMENTS

- 🏆 Winner – World Skills 2021 (University Level)
- 🌐 Selected Web Designer – State-Level Skills Competition
- 🎖 Finalist – i3India IoT Challenge at IIT Bombay
- 📄 Patent Holder – Wildlife AI+IoT Project using YOLO
